La recherche et l'innovation au sein du service de pédiatrie et de néonatalogie sont rendues possibles grâce au soutien de la Fondation de l'Hôpital de Montréal pour enfants.

Nous tenons à remercier tout particulièrement les membres de l'équipe de l'unité néonatale de soins intensifs, nos patients et leurs familles qui nous ont aidés à améliorer la qualité des soins en participant à nos recherches.

CHER.E.S COLLEGUES,

C'est avec grand plaisir que nous vous présentons les réalisations de recherche 2024 de l'unité de soins intensifs néonataux de l'Hôpital de Montréal pour enfants. Nous sommes impressionnés par la productivité et le travail acharné de toute notre équipe. La recherche sert de catalyseur à l'innovation clinique et à l'amélioration de la qualité des soins, et nous pouvons affirmer sans crainte que nous faisons avancer les choses !

Dans ce rapport, vous trouverez la liste des publications, des présentations, des subventions et des prix auxquels nous avons contribué au cours de la dernière année. Les sujets abordés vont de la réparation des lésions cérébrales à la santé cardiovasculaire des prématurés, en passant par l'amélioration du soutien aux familles.

La création d'un environnement de recherche fructueux nécessite la participation et la confiance de toutes les parties prenantes, qu'il s'agisse des scientifiques, des équipes de recherche, des équipes cliniques ou des familles. Merci à vous tous d'avoir rendu cela possible.
